Ner-then 27 to Hashington, D. C., May 20, 1864.

MISSOURI BOTANICAL GARANTE STATES

The Committee of the national Academy of Sciences appointed to prepare a device suitable to be adopted as the Seal of the Academy, desire to avail themselves of such advice and assistance as the other members of the scadeny May be willing to afford them. They therefore respectfully request that you will communicate to them any design, or any emblem or combination of embleus, which may appear to you to be suitable to the purpose intended, and in harmony with the character and objects of the Academy. They morte also any suggestions as to the principles which should govern the selection which your good taste or your ingenuity may lead you to propose. An early reply to this communication is respectfully requested. J. A. P. Marnard Chairman of the Committee

Dr. Les Engelmann
